Hindi, English

EXPERIENCE

Fresher student

PROJECTS

MERN stack AI code Reviewer -

Reviewed team members' code for quality, performance, and best practices. Provided feedback on pull requests to maintain clean, efficient, and bug-free code..

AI chart board with friends and AI -

This project uses AI to make a study chart with your friends. The AI gives each friend a short two-words label like Fast Learner or Good Helper. It helps you study better by showing who's good at what and keeping track of everyone's progress.

React

Weather check -

This project shows the current weather of any city using live data from the internet.

It tells the temperature, weather conditions like sunny or rainy, and more in a clean, easy way.

You can search any place and quickly see the weather details .
